Grade 10 Literacy Assessment

About the Assessment

The Grade 10 Literacy Assessment is a provincial assessment that assesses student proficiency in literacy. It is a graduation requirement and students take the assessment in their Grade 10 year.

The Grade 10 Literacy Assessment assesses student ability to use critical thinking and analysis to make meaning from a diverse array of texts. It also assesses the ability of students to communicate their ideas. The Grade 10 Literacy Assessment is not based on a particular course, but on learning across multiple subjects, from kindergarten to Grade 10.

About the Assessment

The Grade 10 Numeracy Assessment is a provincial assessment that assesses student proficiency in numeracy. It is a graduation requirement and students take the assessment in their Grade 10 year.

The Grade 10 Numeracy Assessment focuses on the application of mathematical concepts learned across multiple subjects from kindergarten to Grade 10. It requires students to solve problems by using five numeracy processes (different ways of thinking and working): interpret, apply, solve, analyze and communicate. The numeracy processes are described in the [pre-assessment activities](#) and in the specifications.

Math Curriculum

Which Math Course?

While there is no rule about which Math course is right for your child, the decision can be made easier by thinking about the following:

- ability in Math
- interest in Math
- future education and career plans

WHO CAN HELP MAKE THE DECISION?

YOUR CHILD'S MATH TEACHER

- In particular, the teacher has spent a lot of time working with your child and is able to give realistic advice based on your child's ability and interest in Math.
- Your child's Math teacher can recommend the pathway that offers your child the best chance for enjoyment and success. After careful consideration, you and your child should make the final decision.
